

REVV

REVV...Where High Performance Meets High Fashion

JMC presents REVV, a forward looking exotic metal jewelry collection. Titanium along with Tungsten has long been known for their strength, durable polish, and hypoallergenic qualities. REVV embodies today's high fashion with its modern style, innovative craftsmanship, creative design and affordable pricing.

The REVV Jewelry Line is "THE CHOICE" for today's modern man.

The collection is ground breaking and features new advances in alternate metals and state-of-the-art technologies. The collection includes comfort fit bands, pendants, dog tags, bracelets and cufflinks.

The REVV collection forges a fashionable statement as it is magnificently accented with diamonds, 14K yellow gold, sterling silver, black onyx, stainless steel, black steel and cable treatments. REVV is popular in every fashion venue from casual to couture.

Titanium is light and completely corrosion resistant, so it wears better and doesn't tarnish or deform easily. Tungsten requires little maintenance because of its extreme hardness; tungsten pieces maintain their luster for decades and are virtually scratchproof.

REVV offers premier designer and exotic metal jewelry.

- State-of-the-art men's jewelry collection consisting of titanium and tungsten.
- Bands are comfort fit and stocked in half sizes from 5 to 13 (with the exception of the Fashion Rings).
- Bracelet designs are available in standard length of 8.5 inches.
- Complete marketing support with: catalogs, elegant displays, and stylish gift pouches

REVV...Care and Cleaning

Both Titanium and Tungsten Carbide jewelry require very little care to keep them beautiful and lustrous.

Caring for your Tungsten jewelry is simple. Just polish the piece with a clean cloth and it will bring back the original shine. This jewelry is designed to last a lifetime.

To care for your Titanium jewelry, use a mild soap and warm water. Gently wash with a soft, non-abrasive cloth and then dry. Your jewelry will be clean in less than a minute!

You may wonder how you can get your ring sized...you can't. That's why REVV is the first to offer a lifetime sizing warranty. If your finger size changes, your ring can too!

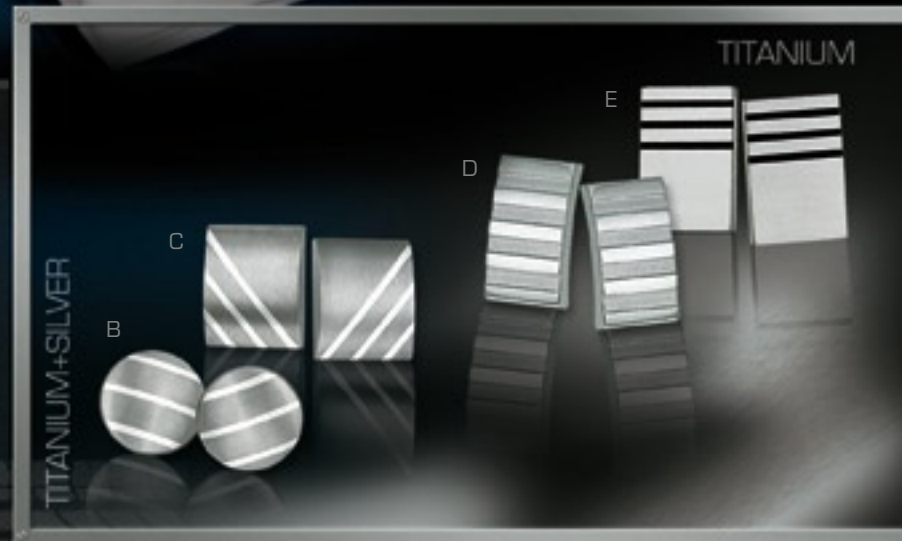

In the event that you need your ring removed, this can be accomplished on-site (just like gold or platinum). For more details about care or the metals, go to REVV.com!

The beauty of these exotic metals is in their exquisite craftsmanship, their fashion forward look, and their striking affordability. Wear them often, and enjoy the versatility and feel of these fantastic metals.
